Crée en 753 avant J.-C. selon la légende Rome n'est alors qu'un village modeste du Latium, avant de devenir cinq siècles plus tard la puissance hégémonique de l'Italie puis, au début de notre ère, la capitale d'un empire méditerranéen qui ne cesse de s'étendre mais qui cherche aussi à intégrer les populations vaincues.

Les 50 dates permettent de brosser un large tableau du monde romain sur la très longue durée.

The distinctive intellectual life of antiquity is not simply shown in the area of theory, nor is it merely seen in context.

 1. ed.
 Société d'édition Les Belles Lettres, 2025
 592 p. ; 19x12 cm.

Comment apaiser la souffrance ? Quels mots et quels gestes peuvent soulager la perte, qu'elle soit humaine, matérielle ou morale ?

Ces questions ne sont pas propres à nos sociétés modernes. Les Anciens étaient conscients des limites de la parole : les figures d'inconsolables peuplent leur littérature. Mais, malgré les échecs thérapeutiques et les résistances, ils étaient confiants dans les pouvoirs du logos et de la parole consolante.

Hoy en día solemos asociar la ciudadanía con la participación política, y por eso se pone en duda que en la antigua Roma las mujeres fueran realmente ciudadanas. Es cierto que las mujeres no tenían acceso a los cargos públicos ni podían votar, pero ¿debemos entender por eso que las mujeres romanas no eran ciudadanas? ¿Qué significaba ser mujer y ciudadana en la Roma republicana?

Les mythes grecs parlent de dieux et de héros, et les cités étaient pleines de sanctuaires où les honorer. Mais la poésie archaïque fait apparaître ce qui semble être un troisième type de puissance divine, à savoir le daimôn.

Que recouvre précisément cette notion dans les textes poétiques des périodes archaïque et classique ? A-t-elle par ailleurs une portée cultuelle ? C'est là l'objet de cet ouvrage. Plus précisément, l'autrice analyse les occurrences de daimôn.

The contributors gather from across the globe to present case studies of the 'summing up' of cultural artefacts, literary and artistic, in epitomic writing, and as a collective they demonstrate the importance of this genre that has been largely overlooked by scholars.

Cuando en 1980 Moses Finley publicó *Ancient Slavery. Modern Ideology* quedó patente cómo los discursos explicativos sobre la esclavitud antigua dependen en buena medida de las interpretaciones derivadas de la coyuntura histórica y cultural contemporáneas. Hoy, cuarenta y cinco años después, dicha coyuntura ha cambiado. Las autoras y autores del presente volumen llevan a cabo una aproximación al estudio de la esclavitud greco-romana conscientes de la nueva realidad histórica.

Ce livre vise donc à combler un premier manque, en interrogeant, par-delà le cursus honorum, la notion de carrière politique dans la res publica.

Le monstre apprivoisé : les tragédies de Sénèque en Europe (1730-1969)

1. ed.
Éditions Hermann, 2025 (Savoir lettres)
392 p. ; 22x15 cm.

Si les tragédies latines de Sénèque sont aujourd'hui une composante familiale de notre paysage théâtral et culturel, tel ne fut pas toujours le cas. Référence majeure des humanistes de la Renaissance, elles font les frais, à partir du XVIIIe siècle, d'une profonde mutation du canon antique et du philhellénisme triomphant. Éclipsées par la tragédie grecque et frappées de discrédit, elles sombrent progressivement dans l'oubli.

Les Chauves : histoire d'un préjugé dans la Rome antique

 9782200638757
 26,20 €

Dans la Rome antique, on disait des chauves qu'ils étaient fourbes, dépravés et tyranniques. Comment expliquer tant de préjugés ? C'est que la « beauté convenable du citoyen » – de la démarche à la voix, en passant par la gestuelle et bien sûr, la pilosité – était l'expression de sa valeur morale.

Dans ces conditions, la chevelure était l'objet d'une attention particulière.

Réfractaires, insoumis, autochtones... les Gaulois occupent toujours une immense place dans l'imaginaire français. On ne connaît ni le nom ni le projet de l'auteur des trentesept lettres bilingues éditées ici. Il s'agit en tout cas de lettres fictives, illustrant une grande variété de situations : des étudiants guère studieux écrivant à leurs proches préoccupés de les voir se consacrer insuffisamment à l'étude et trop à la fête, ou encore des hommes échangeant sur une intrigue politique.

Livie est encore une figure méconnue de l'Antiquité. À côté de Messaline et d'Agrippine, elle semble faire un peu pâle figure. Pourtant, tous les empereurs qui se succèdent, de Tibère à Néron, sont ses descendants.

Issue d'une des plus nobles lignées de la République romaine, elle divorce pour devenir l'épouse de celui qui allait devenir l'empereur Auguste. Présentée comme un coup de foudre, leur union sert les intérêts de l'héritier de César, qui gagne ainsi l'appui de familles illustres.

Mindful of the present state of discourse on ancient Greek historiography, this edited volume explores the major themes of pursuing factuality, managing witness/source bias, falling into historical error and creating or confronting propaganda. Even the greatest ancient historians, striving for factuality and truthfulness, must commence from subjectivity. Their works, when studied closely, reveal biases and conceptual or ideological distortions – their own and others'.

Le présent ouvrage offre la première investigation complète sur une institution jusqu'ici souvent traitée de façon marginale dans la littérature juridique.

Words and rituals represented the empire not as the Roman domination of conquered nations, but as a community capable of integrating the provincials.

Religion in Rural Late Antique Iberia

 Routledge, 2025
 314 p.

This volume examines the dynamism and complexity of religious expressions in rural settings across Late Antique Iberia.

Chapters demonstrate that the rural world was a dynamic space which formed an integral part of the multi-directional process of religious exchange on the Iberian Peninsula in Late Antiquity, thus refuting the idea that rural spaces, and in turn rural religious practices, were static and unchanging, anchored in tradition and resistant to any process of religious change.

Para todo gobernante, como para todo jefe militar, es imprescindible conocer las circunstancias concernientes a sus antagonistas y adversarios (reales o potenciales), con el fin de neutralizar cualquier amenaza y afianzarse en el poder. Sin esa información, las probabilidades de que un gobierno sea derrocado, o de que un general sufra una severa derrota, aumentan de forma exponencial. De ahí que las actividades y servicios de inteligencia hayan sido una constante a lo largo de la historia.

Drawing on new approaches to the philosophy, psychology and sociology of honour, this volume showcases thirteen essays by established and upcoming scholars in which a more complex reality is illustrated.

Dans le cadre de leurs cultes, les dieux et les déesses des Grecs reçoivent des épithètes dont le nombre et la diversité participent du caractère fondamentalement polythéiste du système religieux hellénique. Au cœur de cette richesse onomastique, qui caractérise nombre de divinités, Zeus est incontestablement le mieux doté, quantitativement aussi bien que qualitativement.
