69. Acemoglu, Daron and James A. Robinson: A Theory of Political Transitions

S.R. CLEGG/M. HAUGAARD, eds.

THE SAGE HANDBOOK OF POWER

2009 — 504 pp. €107,64

Power is arguably one of *the* key concepts within the social sciences. The Sage Handbook of Power is the first touchstone for any student or researcher wishing to initiate them selves in the 'state of the art' in this subject.

Internationally acclaimed as at the top of their field, Stewart Clegg and Mark Haugaard have joined forces to select a collection of papers written by scholars with global reputations for excellence. These papers bridge different conceptual and theoretical positions and draw on many disciplines, including politics, sociology and cultural studies. The sweep and richness of the resulting Handbook will help readers contextualise and grow their understanding of this dynamic and important subject area.

Power rather like money and trust in economics is somehow both central and illusive in sociology. It is also misguidedly thought to be the subject matter primarily of politics rather than the social sciences as a whole. The *Handbook of Power* does a magnificent job in rescuing power and rendering it central to contemporary social thought. The *Handbook* is comprehensive in covering everything from liberalism to Marxism, from state to culture, and from rational choice to regulation theory. It explores a cluster of concepts around the main framework: legitimacy, authority, identity, culture, gender and resistance. It is generous in its disciplinary range: geography, sociology, politics, anthropology and international relations.

A work of considerable scholarship, intelligence and endeavour, it will provide successive generations of students with a trustworthy guide to the analysis of power. At the same time, it will be an indispensable reference work for the social sciences broadly conceived.

Contents:

Introduction: Why Power is the Central Concept of the Social Sciences
Mark Haugaard & Stewart Clegg

Part One: Framing the field

Chapter 1

'Power to' and 'power over'

Gerhard Gšhler

Chapter 2

Rational choice perspectives

Keith Dowding

Chapter 3

Liberal theories

Peter Morriss

Chapter 4

Democratic theories

Charles Tilly

Chapter 5

Power and structuration theory

Rob Stones

Chapter 6

Power and discourse: towards an anti-foundationalist concept of power

Jacob Torfing

Chapter 7

Actor network theory

Rolland Munro

Chapter 8

Power, efficacy and resources: perspectives from anthropology

Richard Jenkins

Chapter 9

Powerful Geographies: Spatial Shifts in the Architecture of Globalization

John Allen

Part Two: Power and Related Analytic Concepts

Chapter 10

Three conceptions of the relationship between power and liberty

Mitchell Dean

Chapter 11
Power and identity
Nigel Rapport

Chapter 12
Culture and power
Fredrik Engelstad

Chapter 13
Hegemony and Power
Mark Haugaard

Chapter 14
Legitimacy and power
Raymond Daniel Gordon

Chapter 15
Collective violence and power
Siniša Malešević

Part Three: Power and Substantive Issues

Chapter 16
Gender and power
Amy Allen

Chapter 17
Managing power in organizations: the hidden history of its constitution
Stewart Clegg

Chapter 18
Cultures of resistance in the workplace
David Courpasson & Françoise Dany

Chapter 19
Power and exclusion
Kevin Ryan

Chapter 20
State and power
Robert Jessop

Chapter 21
International relations and power
Phillip G. Cerny

Conclusion

Chapter 22
Conversations in conclusion
Stewart Clegg & Mark Haugaard
