ASMOSIA VII

Actes du VII^e colloque international
de l'ASMOSIA, Thasos, 15-20 septembre 2003

2009 – xvii + 829 pp., fig., lám.col. €166,30

ÍNDICE: *Special Introductory Talk:* C. Koukoulis-Chrysanthaki / S. Papadopoulos: The island of Thassos and the Aegean in the prehistory — *1. Archaeological Considerations - Use of Marble:* T. Stefanicou-Tiveriou: Thassian marble: a connection between Thassos and Thessaloniki — E. J. Walters: Thassian Julius Caesar — G. E. Borromeo & al.: Macedonian workmanship on a thassian marble Hadridn in Providence? — J. C. Fant: White marbles in the summer triclinium of the casa del Bracciale d'Oro, Pompeii — J. J. Herrmann, Jr. / R. H. Tykot: Some products from the Dokimeion quarries: craters, tables, capitals and statues — P. A. Butz: The naxian Colossus at Delos: «same stone» — A. Betori & al.: Investigation of marbles and stones used in Augustean monuments of western alpine provinces (Italy) — F. Bianchi / M. Bruno: Flavian amphitheatre: the cavea and the portico; comments about the quality, quantity and the working of its marbles — O. Palagia & al.: New investigations on the pedimental sculptures of the «Hieron» of Samothrace: a preliminary report — V. Gaggadis-Robin & al.: Provenance investigation of some marble sarcophagi from Arles with stable isotope and maximum grain sizes analysis — L. Cook / I. Thomas: Fausstino Corsi and the coloured marbles of Derbyshire — F. Van Keuren & al.: Three mythological sarcophagi at the RISD museum: marble provenances and iconography — *2: Quarries, Quarrying Techniques, Geology and Stone Properties:* J. A. Harrell: The Bokari granodiorite quarry in Egypt's eastern desert — E. Bloxam & al.: Hard stone quarrying in the egyptian old kingdom (3rd millennium BC): rethinking the social organization — T. Endo / S. Nishimoto: The ancient egyptian quarry at Dibabiya — D. Klemm / R. Klemm: Pharaonic limestone quarries in Wadi Nakhla and Deir Abu Hennis, Egypt — T. Heldal & al.: GPS and IGS methodology in the mapping of Chephren's quarry, upper Egypt: a significant tool for documentation and interpretation of the site — P. Storemyr & al.: New evidence of small-scale roman basalt quarrying in Egypt: Widan el Faras in the northern Faiyum desert and Tilal Sawda by El-Minya — P. Storemyr / T. Heldal: Ancient stone quarries: vulnerable archaeological sites threatened by modern development — P. Hadjidakis & al.: Ancient

quarries in Delos, Greece — M. Wurch-Kozelj / T. Kozelj: Quelques sarcophages rectangulaires d'époque impériale, des carrières thasiennes aux nécropoles de Thasos — K. Laskaridis / V. Perdikatis: Characterisation of the timeless white marble and quarrying activity in Thasos — 3. *Provenance Identification and Characterisation (Marble)*: F. Gabellone & al.: The Torre Sgarrata wreck (south Italy): marble artefacts in the cargo — A. Calia & al.: The Torre Sgarrata wreck: characterization and provenance of white marble artefacts in the cargo — D. Attanasio & al.: EPR and petrographic provenance of the architectural white marbles of three buildings at Villa Adriana — T. Cramer & al.: Marble objects from Asia Minor in the Berlin collection of classical antiquities: stone characteristics and provenance — M. Bruno & al.: On the provenance of white marbles used in the baths of Caracalla in Rome — M. Fischer: Marble from Pentelicon, Paris, Thasos and Proconnesus in ancient Israel: an attempt at a chronological distinction — Y. Maniatis & al.: Provenance investigation of neolithic marble vases from Limeraria, Thassos: imported marble to Thassos? — M. Unterwurzacher & al.: Provenance study of roman marble artefacts of an excavation near Oberdrauburg (Carinthia, Austria) — L. Lazzarini: The distribution and re-use of the most important coloured marbles in the provinces of the roman empire — M. Mariottini & al.: The taste of the marbles in roman *villae* (Tiburina-Nomentana) — L. Lazzarini / S. Cancelliere: *Marmor thessalicum (verde antico)*: source, distribution and characterization — P. Lapuente & al.: Marbles and coloured stones from the theatre of Caesaraugusta (Hispania): preliminary study — R. H. Tykot & al.: Marble sculptures from the Rhode Island School of design: provenance studies using stable isotope and other analysis — J. J. Herrmann, Jr. & al.: Identifying dolomitic marble 2000-2003: the Capitoline museums, New York, and Somnus-Hypnos in Urbisaglia — 4. *Provenance Identification and Characterisation (Other Stones)*: R. Bugini / L. Folli: On tesserae of roman mosaics in Lombardy (Italy) — E. Roffia & al.: Stone materials of the roman villas around lake Garda (Italy) — P. Degryse & al.: The natural building stones of helenistic to byzantine Sagalassos. provenance determination through stable isotope geochemistry — Ø. J. Jansen & al.: Provenance of soapstone used in medieval building in the Bergen region, western Norway — B. Moroni & al.: Archaeometry of chert tools: for a non-destructive geochemical approach — J. Cassar: Classifying maltese prehistoric limestone megaliths by means of geochemical data — F. Antonelli & al.: «Granito del foro» and «granito di Nicotera»: archaeometric problems — O. Özbek: The prehistoric ground stone implements from Yartarla: the preliminary results of a geoarchaeological study in Tekirdag region (eastern Thrace) — S. Chlouveraki / S. Lugli: Gypsum: a jewel in minoan palatial architecture; identification and characterization of its varieties — L. Lazzarini / F. Athanasiou: The discovery of the greek origin of the «Breccia policroma della Vittoria» — 5. *Techniques and Developments*: J. Zöldföldi / Z. Kasztovsky: Provenance study of lapis lazuli by non-destructive prompt gamma activation analysis (PGAA) — F. Biricotti / M. Severi: A new non-destructive methodology for studying the internal structure of white marble of artistic and archaeological interest — 6. *Databases*: S. Pike: A stable isotope database for the ancient white marble quarries of mount Pentelikon, Greece — G. Kokkorou-Alevras & al.: Corpus of ancient greek quarries — B. Székely / J. Zöldföldi: Fractal analysis and quantitative fabric analysis database of west anatolian white marbles — 7. *Stone Properties - Weathering - Restoration*: A. Tsikouras & al.: Correlations of mineralogy and physical properties for stones used in the building and the restoration of the Asklepieion at Epidauros — I. Papayianni / M. Stefanidou: Study of the behaviour of serpentinite stones used for the construction of ancient Dioklitianoupoli in northern Greece — M. Greenhalgh: Where have all the columns gone? The loss and reuse of antiquities in the eastern Mediterranean — K. Kouzeli / E. Zgouleta: Gypsum at the minoan site of Knossos: types and deterioration — L. Giordani & al.: Instrumental neutron activation analysis of the marble façade of the *Certosa di Pavia*: materials provenancing and problematics related to decay — K. Polikreti / Y.

Maniatis: Ionic and charge mobility on weathered marble surfaces, studied by EPR spectroscopy — 8. *Pigments and Paintings on Marble*: B. Bourgeois / P. Jockey: Polychrome hellenistic sculpture in Delos: research on surface treatments of ancient marble sculpture, part II — A. G. Karydas & al.: *In-situ* X-ray fluorescence analysis of raw pigments and traces of polychromy on hellenistic sculpture at the archaeological museum of Delos.

LAZZARINI, L., ED.: *Interdisciplinary Studies on Ancient Stone*. ASMOSIA VI. Proceedings of the Sixth International Conference of the Association for the Study of Marble and Other Stones in Antiquity, Venice, June 15-18, 2000
2002 – 548 pp., 396 fig., 414 lám.col. y b/n. €275,00

ASMOSIA, VI

HERRMANN, J. J., JR. / N. HERZ / R. NEWMAN, EDS.: *Interdisciplinary Studies on Ancient Stone*
2002 – xi + 420 pp., fig., lám.col., tabl. €70,00

ASMOSIA, V

SCHVOERER, M., ED.: *Archeomatériaux. Marbres et autres roches*. 4^e conférence internationale de l'Association pour l'étude des marbres et autres roches utilisés dans le passé, ASMOSIA 4, Bordeaux-Talence, 9-13 octobre 1995
1999 – 368 pp., fig., lám.col., map €53,36

ASMOSIA, IV

WAELENS, M. / N. HERZ / L. MOENS, EDS.: *Ancient Stones: Quarrying, Trade and Provenance. Interdisciplinary Studies on Stones and Stone Technology in Europe and Near East from the Prehistoric to the Early Christian Period*
1992 – 296 pp., fig., tabl., fot. €75,00

ASMOSIA, II

HERZ, N. / M. WAELENS, EDS.: *Classical Marble: Geochemistry, Technology, Trade*
1988 – xvi + 482 pp., fig., fot. €379,85

ASMOSIA, I
