Acknowledgements

We thank Prashanth Mahagaonkar for his help and advice in compiling this book. It is much appreciated. We would also like to thank the following people:

I thank my family. The Portuguese Foundation for Science and Technology (Grants and NECE-UIDB/04630/2020) provided support for this study.

João Leitão

I thank my mum for fostering my interest in education and travelling. It is only with her help and support that I became what I am today. She very much valued the role education plays in a female's economic development and I realise that more today than ever before. I was lucky that I shared my experience with her in visiting Ecuador in South America and travelling to the Amazon. I have only been to Ecuador in Latin America, so I hope to go to more places in the future. I have travelled to some places in Iberia but hope to travel more in the future to this region. Watching TV shows on Portugal and Spain during the COVID-19 lockdowns is not the same so I hope to spend time in this region in the future. Thus, I dedicate this book to my mum Kaye Ratten. I also thank my other family members David Ratten, Stuart Ratten, Hamish Ratten, Sakura Ratten, and Tomomi Ratten. Thank you.

Vanessa Ratten

I thank the School of Technology and Management, Porto Polytechnic, for the institutional support, in particular to my colleagues in the Business Sciences Department for their enthusiasm and constant willingness to help. I also thank my family and close friends, for their honest support throughout life.

This work has been supported by national funds through FCT (Fundação para a Ciência e Tecnologia) through project UIDB/04728/2020.
