Acknowledgments

This book has been the hardest one for me to write. I began thinking about a biography of Acosta about ten years ago. But between personal turmoil and a pandemic, the project stalled. If this book is finally coming out, it is due to the people who supported and encouraged me along the way. In the first place, my wife, Kerri. Her love, support, and determination have been essential for me all this time. She also read more iterations of the same chapters than it was fair of me to ask of her. And in those times when I could not find it in me to go back to the manuscript, she always knew how to steer me right. This book is dedicated to her.

I would also like to thank Robert Maryks, who has always shown interest in my research. Every time he saw me, he asked me about this book. His deep knowledge of Jesuit history (and of early modern history in general) and his generosity in sharing it have always been both inspiring and instructive. Many other friends have also been instrumental in the completion of this book. Peter Elmore, who as chair of the Spanish and Portuguese Department at the University of Colorado at Boulder did everything in his power to facilitate my research. Later, as a colleague and friend, Peter read several chapters of this book. His vast knowledge of Peruvian history helped me make this a better book. Ivonne del Valle, who in a long talk in San Juan, Puerto Rico, helped me see new avenues for research into Acosta. I would also like to thank my friends and colleagues, John Slater and Julio Baena, who generously read several chapters of this book. Research at the Jesuit archives in Rome during the summer of 2019 was made possible by a generous LEAP Grant from CU Boulder's College of Arts and Sciences. In Rome, Robert Danieluk went out of his way to make me feel at home at ARSI. Many thanks also to Álex Bermúdez Manjarres, who speaks Latin like an ancient Roman. His help in making sense of Acosta's elegant and sophisticated Latin texts has been invaluable. Special thanks also to the anonymous readers. Their suggestions helped make this a better book.

I started thinking seriously about Acosta in grad school, in no small part due to a passing comment made over coffee by my advisor, the late Osvaldo F. Pardo. This book is the belated product of our conversations.
