Provides large-scale analysis of age, gender and status in Macedonian society

- Draws on a database of over 1,100 graves for a large-scale picture of Macedonian burials
- Discusses the applicability of intersectional approaches to a context with scarce textual sources
- Contributes to the burgeoning discussion on children in Antiquity
- Argues gender roles were, on one hand, clearly distinct but also showed some fluidity depending on status

Aquae Urbium : el ciclo urbano del agua en la Hispania romana

This book explores the application of glocalization theory in the context of Roman archaeology. Chapters range across social and economic connectivity, architecture and construction, trade, iconography, art and agricultural production and apply glocalization in different ways. Such a diverse range of topics and approaches provokes further consideration of glocalization as an analytical tool that can generate new perspectives in Roman archaeology and history.

L'activité des sociétés anciennes est étroitement dépendante de l'accès au bois, sous la forme de matériau ou de combustible. Au sein des sociétés qu'ils étudient, l'historien comme l'archéologue se trouvent souvent démunis pour reconstituer la diversité des paysages forestiers du passé et leurs dynamiques historiques, les pratiques sylvicoles, les stratégies d'approvisionnement et la circulation de la ressource en bois.

La question des conflits armés est malheureusement un des sujets de nos sociétés actuelles. On pourrait penser qu'au contraire, la préhistoire se composait des communautés idylliques où le communautarisme et la fraternité entre les peuples dominaient ; il n'en est a priori rien. De plus en plus de témoignages d'archéologues semblent bien nous orienter en ce sens.

Contextualizing Pompeiopolis : Urban Development in Roman Anatolia from a Comparative Perspective

After the Pontic Kingdom’s defeat and northern Anatolia’s integration into the Roman Empire in 64/63 BCE, the region experienced an urban transformation. The victorious Pompey founded Pompeiopolis as one of seven new cities. This book publishes seminal fieldwork conducted at Pompeiopolis (2006–2016) with comparative studies on Roman cities that lays the groundwork for future research on the development of urban landscapes in the Roman East.

La "bâtie", structure militaire particulière apparaissant dans les sources textuelles des principautés de Savoie et de Dauphiné dans les derniers siècles du Moyen Âge, est difficile à cerner malgré des caractéristiques juridiques et architecturales propres. Elle joue un rôle primordial dans l’occupation et l’organisation d’un territoire conquis et est détenue tant pas les noblesses locales que par le pouvoir central.

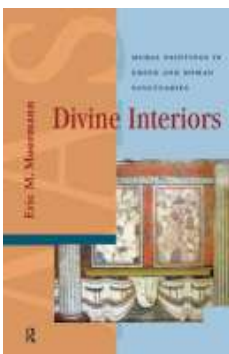

Die antike Stadt als Gefühlsraum : Rom und Pompeji als Orte der Liebe, Erotik und Sexualität

Haug, Annette

How do people express their emotions on the urban stage – and does this lead to spatial patterns of order? This book explores this question in relation to the late Republic and early imperial period (1st century BCE to 1st century CE) by considering the emotional complex of love, eroticism, and sexuality. Two different text genres form the foundation: urban Roman romantic elegies and epigrams, as well as erotic and sexual graffiti from Pompeii.

Divine interiors : Mural Paintings in Greek and Roman Sanctuaries

Moormann, Eric M.
 1. ed.
 Routledge, 2025
 (Amsterdam Archaeological Studies)
 268 p. ; 27x21 cm.
 9781041178279
 74,03 €

Divine Interiors is an investigation into the decoration of Greek and Roman temples with wall paintings. Mighty marble facades, sculptures and paintings played an important role in relation to these monuments. While the official temples, which were connected to the city or state, usually had a simple but solemn appearance, the more popular buildings were true multi-color expressions of religiosity.

East Germanic Ironmaking in the Roman Period : archaeometry of Slag and Ore Finds in the Przeworsk Culture

Este libro analiza los anfiteatros y circos de la Hispania Ulterior Baetica, especialmente los de Carmo (Carmona), Itálica (Santiponce) y Astigi (Écija), ubicados en la actual provincia de Sevilla. Estas construcciones definían urbanísticamente las ciudades romanas, imitando a Roma con sus funciones para ludi (juegos), incluyendo munera (luchas de gladiadores) y venationes (cacerías). También servían como escenarios políticos y religiosos.

El Magreb y la península ibérica entre la Protohistoria y la Antigüedad Tardía. Debates en torno a la cerámica ofrece una mirada novedosa por su amplia diacronía, dado que ha sido frecuente hasta el momento acometer estos estudios de forma fragmentada, poniendo la línea roja de separación en muchos casos en la fase de conquista romana e incluso creando cajones estancos más limitados (como, por ejemplo, la cerámica de época arcaica en la Protohistoria).

Les forgerons de l'Antiquité sont aujourd'hui regardés comme d'anonymes producteurs d'outils, d'armes, de machines et de bijoux. Mais il en était tout autrement à l'âge du bronze, où ces artisans faisaient figure de héros civilisateurs, bravant l'autorité des dieux comme des puissants de ce monde. La mythologie les désigne également comme des devins, poètes, musiciens, médecins, les sages parmi les peuples et les gardiens de leur mémoire.

Philippe II et Alexandre le Grand ont bouleversé les équilibres politiques et militaires du monde grec classique. En développant une pensée militaire fondée sur la coordination des armes et non sur le primat de l'infanterie, ils ont donné à la cavalerie une importance tactique nouvelle. L'épopée d'Alexandre inaugure une conception de la guerre dans laquelle les chevaux sont des acteurs essentiels, infléchissant la stratégie et la logistique de campagne.

Human Sacrifice and Value : Revisiting the Limits of Sacred Violence from an Anthropological and Archaeological Perspective

Walsh, Matthew J. (ed.) ... [et al.]
1. ed.
Routledge, 2025

Domestiqué vers le 4e millénaire avant notre ère, l'âne joue un rôle considérable dans la culture matérielle et la vie quotidienne des peuples de l'Antiquité méditerranéenne. Les documents nous montrent surtout un animal qui travaille : il porte, il tire, il pousse, il foule. Par là même, son image symbolique est le plus souvent positive, même si la mythologie en dresse un portrait plus nuancé, et si les fables et les proverbes mettent en valeur son obstination et son manque de lucidité.

El cuerpo de las mujeres ha sido objeto de controversia a lo largo de la historia. Nos define y nos estereotipa mucho más que a los hombres. Las normas, los gustos, las modas y las imposiciones sociales de cada momento determinan cómo debemos ser, pesar, qué debemos aparentar... y, en muchas ocasiones, terminamos cediendo a lo que se espera de nosotras, y esto acaba siendo un poderoso instrumento político que se utiliza, muy a menudo, a nuestra contra.

By adopting a theoretical approach rooted in the anthropological study of agrarian communities, this book investigates the reach and impact of Roman civilisation while considering the limitations of pre-industrial communication and social organisation. For half a millennium, the Roman state unified the Mediterranean world in an empire without parallel in European history. Yet, to what extent did this vast domain truly integrate the diverse cultures under its rule?

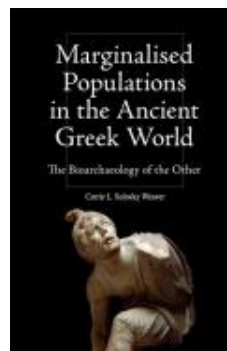

Making Money in the Early Middle Ages

Between the end of the Roman Empire in the fifth century and the economic transformations of the twelfth, coined money in western Europe was scarce and high in value, difficult for the majority of the population to make use of. And yet, as Rory Naismith shows in this illuminating study, coined money was made and used throughout early medieval Europe.

Sphinx, centaures, sirènes... Aujourd'hui, les théranthropes, ces créatures mêlant traits humains et animaux, ne sont plus guère que des figures mythologiques. Mais pendant près de 50 000 ans, ils ont constitué un miroir tendu à l'homme pour comprendre sa place dans le monde. Rares au Paléolithique, ils prolifèrent dès le Néolithique, devenant centraux dans de nombreuses cultures. Pourquoi ce basculement fascinant ?

For humans the sea is, and always has been, an alien environment. Ever moving and ever changing in mood, it is a place without time, in contrast to the land which is fixed and scarred by human activity giving it a visible history. While the land is familiar, even reassuring, the sea is unknown and threatening. By taking to the sea humans put themselves at its mercy. It has often been perceived to be an alien power teasing and cajoling. The sea may give but it takes.

Recent studies have demonstrated that ancient Near Eastern societies considered themselves as part of one social fabric, divided not by mode of life or place of residence, but according to traditional associations of kin. Kinship relations appear to maintain their essential integrity over long periods of time, even within complex political organizations.

Peasant Economies and Societies in Ancient Roman Iberia

In the ancient world, theatre was one of the main factors of social interaction, spreading political, religious, cultural and socio-ethical concepts among the people, transmitting knowledge and thus uniting the diverse populations of cities and villages. Some of these models were retained, with minor changes, in the repertoires of the new theatres and are still performed on stage in their original form or in accurate translations into new languages.

Réemploi, réutilisation, référence dans les sociétés anciennes

Comment et pourquoi les sociétés anciennes pratiquaient-elles le réemploi et la réutilisation ? Qu'est-ce qu'une référence et comment cette notion se manifeste-t-elle dans les réseaux méditerranéens antiques ? Cet ouvrage propose une étude pluridisciplinaire de ces trois concepts dans l'Antiquité.

Au sein de nos sociétés contemporaines, les notions de réemploi, de réutilisation et de référence sont étroitement associées à des considérations écologiques et économiques.

Solomonica Magica is the first comprehensive survey of 'Solomonic' or 'Holy Rider' amulets from the Mediterranean of Late Antiquity and Early Byzantium. Hundreds of magical gems, leaf-shaped pendants, circular medallions, and other apotropaic objects—many of which were previously unpublished—are presented against the backdrop of a parabiblical tradition involving Solomon the Magician and Sisinnius the Demon-Hunter. All Greek texts have received fresh critical editions and English translations.

51,24 €

Imagery and iconography served specific functions in public, private, and ritual spheres in the Roman world. State-sanctioned imagery communicated politically charged ideas through an often-complex pictorial language, composed of emblems and attributes that signaled aspects of policy. In the private sphere, imagery communicated ethnic, social, and religious identities through specific signs, symbols, and forms, and through the emulation of state-sanctioned art.

The Peopling of the Caucasus : Early Human Settlement at the Crossroads of Continents

9781009520232
128,14 €

Located at the crossroads of Europe, Asia, and the Middle East, the Caucasus region has played a critical role in the dissemination of languages, ideas, and cultures since prehistoric times. In this study, Aram Yardumian and Theodore Schurr explore the dispersal of human groups in the Caucasus beginning in the Palaeolithic period. Using evidence from archaeology, linguistics, and anthropological genetics, they trace changes in settlement patterns, cultural practices, and genetic variation.
