

RASO, T. / H. MELLO, EDS.: SPOKEN CORPORA AND LINGUISTIC STUDIES

Introduction: Spoken corpora and linguistic studies: Problems and perspectives

- Tommaso Raso and Heliana Ribeiro De Mello

Section I: Experiences and requirements of spoken corpora compilation

Methodological issues for spontaneous speech corpora compilation: The case of C-ORAL-BRASIL

- Heliana Ribeiro De Mello

A multilingual speech corpus of North-Germanic languages [Full-text]

- Janne Bondi Johannessen, Øystein Alexander Vangsnes, Joel Priestley and Kristin Hagen

Methodological considerations for the development and use of sign language acquisition corpora

- Ronice Müller de Quadros, Diane Lillo-Martin and Deborah Chen Pichler

Section II: Multilevel corpus annotation

The grammatical annotation of speech corpora: Techniques and perspectives

- Eckhard Bick

The IPIC resource and a cross-linguistic analysis of information structure in Italian and Brazilian Portuguese

- Alessandro Panunzi and Maryualê M. Mittmann

The variation of action verbs in multilingual spontaneous speech corpora: Semantic typology and corpus design

- Massimo Moneglia

Section III: Prosody and its functional levels

Speech and corpora: How spontaneous speech analysis changed our point of view on some linguistic facts: The case of sentence intonation in French

- Philippe Martin
- Corpus design for studying the expression of emotion in speech
- Klaus R. Scherer
- Illocution, attitudes and prosody: A multimodal analysis
- João Antônio de Moraes and Albert Rilliard
- Exploring the prosody of stance: Variation in the realization of stance adverbials
- Douglas Biber and Shelley Staples

Section IV: Syntax and Information Structure

Prosody and information structure: Segmentation, integration, and in between

- Marianne Mithun

The notion of sentence and other discourse units in corpus annotation

- Paola Pietrandrea, Sylvain Kahane, Anne Lacheret and Frédéric Sabio

Syntactic properties of spontaneous speech in the Language into Act Theory: Data on Italian complements and relative clauses

- Emanuela Cresti

Prosodic constraints for discourse markers

- Tommaso Raso

Appendix: Notes on the Language into Act Theory

- Massimo Moneglia and Tommaso Raso
